

Adding PAF records to your database (Data Extraction)

- Guidance**
- Data Extraction is the process of adding new PAF records into a database where there was previously none.
 - Data Extraction from the PAF dataset can only happen in certain circumstances
 - Extracted PAF Data can only be used by licensed Users of that same End User
 - Extracted Data must not be supplied or any access to it provided to any third party
 - Multiple Residence & Not Yet Built is licensed in a similar way (additional Licence Fees apply)
