

Organisation Use Fee

What is it?

Think of it as a cap on how much is chargeable for one single organisation for all of its own PAF[®] licensing from a single [Solutions Provider](#).

How does it work?

It's a simple way of capping PAF licence fees applicable to an [End User](#) who uses PAF itself and on its website.

Several Fees options are available to an End User:

- [Users](#)
- [Multiple User Block](#)
- [Transactions](#)
- [Website Use](#)

which (apart from Website Use) are uncapped.

The Organisation Use Fee allows a single fee to be charged for all an End Users use.

So	Unlimited Users
Plus	Unlimited Transactions
Plus	Unlimited Website Use (including High Use Threshold)
All for	£15,900 per year for PAF
	£1,875 per year for Multiple Residence
	£1,875 per year for Not Yet Built

Organisation Use does not cover fees for [Bureau Services](#) and [Closed User Group](#).

- This is for:
- one single End User
 - per Solutions Provider (Licensee)
 - per year

See Schedule 2 paragraphs 2(n) and 2(o) of Solutions Provider Agreement or Schedule 2 paragraph 2(l) of direct End User Agreement.
