

# Website Use

## What is it?

The term Website Use is used to describe a type of fee. This fee is designed to cap the liability of organisations who are using PAF® on their Website.

## How does it work?

An End User may use PAF to capture or verify address details of users of an [End User's](#) Website where:

A: Website users are not

- the End User's employees
- concerned with the provision of services to the End User (unless acting in a personal capacity),

B: neither the use of

- the Website
- the End User's product and service offering is connected with the management of address data or Data Cleansing,

C: the address capture or verification is carried out for the purpose of the receipt of products or services enabled by the Website.

The Website Use Fee authorises a single End User's Website Use only.

Full PAF - £5,300 · Part PAF - £3,175

Multiple Residence - £625 . Not Yet Built - £625
