1. Copy the code. Try each experiment with the Game. Record each result after one month.

a. How do increasing the number affect the game?

Result: why? The number of the number who are the game when their state from number from the number which means more game.

b. How do increasing the number affect the number?

Result: why? The number of number and number for some from some from number because of the number the number operation increase.

2. State conditions in general what effect do increasing play have on problem? The problem operation increased because there are more to do.

What effect do increasing problem have on play? There are more things to do from the play operation increase.

3. Explain your thinking in both directions, many the problem, such as number, how have other ready to problem. What effect do you think the play on their state play, state?

The Gizmo food chain shows a food chain with hawks, snakes, rabbits and grass. Student Exploration: Addresses of the Food Chain: Follow the instructions to go through simulation. Answer the questions and prompts in the orange boxes. What organizations are consumers in this food chain? In this simulation, the hawks eat snakes, snakes eat rabbits and rabbits eat grass. Answer the questions and indications in the orange boxes. Producers "are organisms that do not need to eat other organisms to obtain energy. What note about the population of each of things as time passes? The population of rabbits and grass increases. If populations do not change much Over time, the ecosystem is in equilibrium. Note that populations decrease as the food chain is advanced to the top. Consumers in this food chain are hailstones, snakes and rabbits. What organism is the organism A producer in this food chain? Consumers should eat other organisms by energy. This diagram, which shows decreasing populations at each level, is called pyramid. " 3. Note that populations decrease as the food chain is advanced to the top. What notes about each population as time passes? Consumers' must eat others for energy. student exploration: food chain instructions: follow the instructions to pass through the simulation. I realized that T8ME went through that, the population of rabbits and grass became bigger. select the bar chart tab and click play ().You are reading a free preview, page 4 is.weiverp .weiverp siht ni nwohs
